The Exidy Monitor
Volume I, Issue 9

This is the ninth and last issue of "The Exidy Monitor" that Computer Mart will put out -- but don't panic yet.

First of all, let me tell you why Computer Mart is no longer going to publish the newsletter. In January of 1979 Bruce McGlothlin, who was our salesman, started to organize a users group for the Sorcerer. He drafted me because I had been working with the Sorcerer, and as a programmer I knew more about it than he did. Tom Harper also helped out when he could, but most of the work was done by Bruce and myself.

Then a few months ago Bruce and Tom both left to find employment elsewhere; Bruce at Exidy and Tom at DEC. I was the only one left to continue the newsletter, but because of an increased work load I was only able to get it out irregularly.

Now if my main responsibility was to get out a newsletter, I could do it on a monthly basis even for the 230 members the group currently has. But with the departure of Bruce and Tom I began to have to handle sales, testing of new equipment (something Tom had previously been handling), and most of the programming. Fortunately there has been little programming to do, but that has now changed. In the near future I will be working on two large software projects that will leave me little free time for the next few months. In addition, Computer Mart will be getting in a new business system (the NEC Astra) which will take up more of my time.

Computer Mart simply can no longer support the group.

You can panic now if you want, but we do have a solution:

We have been in contact with Steve Long of the Sorcerer Users Newsletter and have been making arrangements for him to take over the group and finish your subscription with editions of the S.U.N. Be aware that it may take some time for us to reach a final agreement, and that we will keep you informed of any new developments.

If however, you already have a subscription to the S.U.N., or wish for some other reason not to have your subscription continued, you can send us a note to that effect along with a self-addressed, stamped envelope and we will refund the remaining portion of your subscription money.

If you've resisted panicing up to this point, this might break you:

Because of all the reasons above, and because it simply isn't profitable, at the end of this month Computer Mart will no longer be filling mail orders for Sorcerer software. The merchandise will only be available as an "over the counter" item.

Also, any member who submitted a program that is now in the Software library and who does not want us to sell it once Steve Long takes over the group should contact us. Your subscriptions will be continued even if we stop selling the software.

This issue of "The Edidy Monitor" contains the names and addresses of the members of the group, except for those who wished to remain unknown. We hope this will be of some help in allowing you to communicate with one another.

Following you will find a list of Sorcerer Users groups that are known to us.

Sorcerer User's Group
